

# COYOTE MAD SEEDS

Coyote Mad Seeds are released their latest single 'Rabbit Hole' on 27th Oct 2023 from their new album 'Nyctophobia'  
(Included with the online EPK containing the full album)

**Nyctophobia** is their fourth release (out 24<sup>th</sup> Nov 2023) succeeding their 2019 EP **Tetrahedron**.

The new album is the best Coyote Mad Seeds has ever sounded. Full of heavy guitar tones, punchy bass and hard-hitting drumbeats that make you want to rock out like a crazy dog on caffeinated speed. The new album continues to show the full force balls out rock 'n' roll that shows Coyote Mad Seeds for who they really are and shows their natural progression as musicians.
